**THE RIGHT MEN TO THE RIGHT PLACE.**  
THURSDAY MORNING, MAY 14, 1908.

What Happened to the Fellows Who Tried to Kidnap the Republican Party of California. Devlin was defeated for delegate to Chicago on Tuesday and little Rowell was defeated yesterday. [The Evening Express dishonestly declared last evening that Rowell's election "was conceded."] Both the president and State organizer of the Lincoln-Roosevelt League are humiliated.

**BRAGGART ROWELL TO STAY AT HOME.**  
State Organizer of Lincoln-Roosevelt League Defeated in His Own District—Shares Fate of President Devlin of the Insurrectos.  
[BY DIRECT WIRE TO THE TIMES.]  
STOCKTON, May 13.—[Exclusive Dispatch.] After having organized a side-show party, delivered speeches and denounced the bad Republican bosses and the awful Republican "machine," having made a howl against all the world, and engaged rooms at Chicago, wouldn't it jar you to be beaten for delegate to the National Republican Convention?  
This sad blow was struck this afternoon, when the Sixth Congress District Convention here turned down the Lincoln-Roosevelt League candidates for delegates to the Chicago convention, after one of the most exciting struggles ever witnessed in this city. The league, which has been bragging that it could control the district, made a hard fight, but failed to land.  
Early in the day the delegates arrived, and there was a lot of quiet before the convention was called to order by Committeeman Mitchell. Three or four men were suggested as chairman, but not until Senator Thomas Flint of San Benito was brought forward could an agreement be reached. He declined, but was finally prevailed upon to accept the position.  
Fresno came here to trade twenty-six delegates on any kind of basis, but failed to get many counties interested. San Joaquin, through the candidacy of J. A. Plummer, split its vote, and the delegates became badly mixed up. It was the only county that did not vote solid. After the committee had been appointed and reported, the real excitement commenced.  
Chester H. Rowell of Fresno, the State organizer of the Lincoln-Roosevelt League, and J. A. Plummer of Stockton were put forward by the league.  
Return Roberts of Madera and J. R. Hebborn of Monterey were named by the regulars. The rollcall was carried on amid a silence that would have been interrupted had a pin dropped. The mixed vote of San Joaquin set the politicians guessing, even if they were checking up the votes.  
The result was in doubt until the last county, Stanislaus, had voted. When the chairman of the delegation announced eight votes for Roberts and Hebborn a great cheer went up. Supporters of the two winners sur-

**SHIP PEOPLE AS "FREIGHT."**  
Best Sugar Growers Got 310 Men, Women and Children.  
[BY DIRECT WIRE TO THE TIMES.]  
KENOSHA (Wis.) May 13.—[Exclusive Dispatch.] Shipped as freight, 310 men, women and children arrived in Kenosha Tuesday evening.  
They were billed to the Janesville Best Sugar Co., which recently leased a large amount of land in this and surrounding counties, and the people, who are experts in the business of raising sugar beets, were brought here from Germany to teach local farmers the industry.  
In billing the people, children were billed as so many "half persons."  
The party came on a special train, bringing their goods and chattels with them. All are expected to find permanent homes in this and adjoining counties.  
A second load will arrive next week.

**TORNADO TIME.**  
SOUTH AGAIN STORM-SWEPT.  
HEAVY LOSS OF LIFE REPORTED IN LOUISIANA.  
Town of Gilliam Said to Have Been Wiped Out and a Number of Persons Killed or Injured—Oil City and Bologier Also Suffer—Tornado in Iowa.

[BY THE ASSOCIATED PRESS—P.M.]  
ATLANTA (Ga.) May 13.—According to information received in this city, a tornado struck parts of Louisiana today, causing loss of life in Gilliam, Oil City and Bologier.  
Telegraphic communication is interrupted, but reports say that the storm started north of Shreveport, swept along to Little Rock, and then to Arkansas, and is centered tonight in Texas.  
It is reported that Gilliam, La., a town of 200 inhabitants, is wiped out and a number of lives lost.  
Oil City is also reported destroyed with loss of life and a number of persons injured.  
TOWN WIPED OUT.  
[BY THE ASSOCIATED PRESS—P.M.]  
LITTLE ROCK (Ark.) May 13.—The Postal Telegraph Company here has received a message saying about half the inhabitants of Gilliam, La., have either been killed or injured by a tornado, and urging that relief be sent at once.  
Later advice to the Times says that all houses in Gilliam except two are demolished. Gilliam is a town of between seventy-five and one hundred inhabitants.  
THREE KILLED HERE.  
[BY THE ASSOCIATED PRESS—P.M.]  
SHREVEPORT (La.) May 13.—A report received here tonight states that three persons were killed and two others injured during a tornado which badly damaged the town of Bologier, La., late today.

**WIZARDS FLY IN AEROPLANE.**  
WRIGHT BROTHERS ACCOMPLISH REMARKABLE FEAT.  
Sail Three Miles in Less Than as Many Minutes, Making Three Beautiful Turns With Flying Machine and Having It Always Under Perfect Control.  
[BY DIRECT WIRE TO THE TIMES.]  
SANTEGO (N. C.) May 14.—[Exclusive Dispatch.] On the beach at Kill Devil Hill this morning the Wright brothers, Orville and Wilbur, passed all competitors in aerial navigation and took a dominating lead in the effort to solve the problem of the air.  
Three miles in two minutes and fifty seconds is the marvelous record which they achieved in their new aeroplane. The run included three beautiful turns and for the entire three miles the brothers sat upright in their machine, guiding it along its course. This fact is of the greatest importance in itself. When a few months ago De Lagrange and Farman rode side by side on their aeroplane for a distance of 200 feet the world marveled.  
There was not an instant today that the Wright brothers' machine was not under perfect control. From start to finish it rose and fell with graceful sweeps like a huge gull.  
The three turns were made so perfectly, with broad encircling sweeps, that the movement was scarcely noticeable, and when the descent was made because of a trifling imperfection in the gasoline engine, it was so gradual and stately and accomplished under such complete control that not the slightest jar was perceptible.  
Tonight the two navigators of the air are housed with their machine, the Wrights, at it and being it into shape for another trial tomorrow.

**AMEER ASSASSINATED.**  
Report from Afghanistan, Unconfirmed, Says New Ruler Is Opposed to British Influence.  
[BY DIRECT WIRE TO THE TIMES.]  
ST. PETERSBURG, May 13.—[Exclusive Dispatch.] Advice from Afghanistan state that it has been rumored that a meir Habib Ullah Khan has been assassinated and has been succeeded by his brother, Nair Ullah Khan.  
Nair Ullah Khan is considered as opposed to British influence in Afghanistan.  
It is impossible at present to obtain any confirmation of the report.  
If true, it will probably lead to a partial occupation of Afghanistan by British troops.

**THIRD CALIFORNIA FOR TAFT.**  
OAKLAND, May 13.—The Third California Congressional District Convention endorsed William H. Taft for the Presidency, and the delegates to the national convention were instructed to vote for him.

**AGENT GOT A VICTIMS.**  
Detectives Seek the Solicitor.  
Clue Found by Postoffice Inspectors Confirmed by Business Men.  
Mrs. Guinness had Representative Call on People Who Answered "Ad."

**Murderer Advertised Extensively in Papers, Using Four Aliases.**  
[BY DIRECT WIRE TO THE TIMES.]  
LAFORTE (Ind.) May 13.—[Exclusive Dispatch.] Information gathered by postoffice inspectors and strengthened by a letter received today from a business man of Cleveland, indicates that Mrs. Bella Guinness had a field agent who assisted her in gathering in victims for her "murder farm."  
The postoffice inspectors who were here several days ago have learned that Mrs. Guinness advertised extensively in newspapers at Chicago, Champaign, Ill., Peru, Ind., Warsaw, Ind., and other places, having letters addressed variously to Mrs. Bella Guinness, Mrs. Jennie Hinckley, Mrs. Bella Brown, and Mrs. Jennie Guinness, and that her agent would call for the letters and then interview the writers and urge the attractiveness of Mrs. Guinness as a reason for taking a trip to Laporte. This man is said to have been very recently at Warsaw, Ind., and C. J. Smith, in charge of the Pinkertons at work here, has gone to Warsaw.  
The Cleveland man, whose name is withheld by the authorities for the present, writes to Chief of Police Cochran saying a man who introduced himself to the writer on the streets in Cleveland last summer, represented himself as a traveling salesman, and asked the writer if he was married, told him about a wealthy widow at Laporte, who was looking "for a man" and urged him to go out and see her. The man gave the writer a stamp picture of Mrs. Guinness which was enclosed in the letter to Chief Cochran.  
Mortimer Carlson of the Murdoch Interchange line today declared that a man exactly fitting the description of Mrs. Guinness's agent, rode on his car. Invariably he got off at the stop nearest Mrs. Guinness's home.

**HANKERS AID SLAUGHTER.**  
In the expectation that Ray Lamphere will make an open confession of his supposed part in the tragedies on the Guinness farm before his case is taken up by the grand jury, the authorities today turned their attention to establishing the identity of mysterious men who were seen to enter Mrs. Bella Guinness's farm house, but who were never seen to leave it.  
Officials of the three Laporte banks held a conference today to determine the most effective way in aiding the authorities in the Guinness murder case. It was decided that they should gather back of foot trails through which Mrs. Guinness paid out, deposited or received money. With a complete list of this kind, Prosecutor Smith expects he will be able to obtain valuable information.  
The disappearance of two more men and one woman was reported to Sheriff Snitzer today. State Attorney Smith and several Pinkertons today went to Valparaiso, Ind., to look for an accomplice of Lamphere.  
"If Mrs. Guinness did not get letters every morning," Dan Hunter, rural mail carrier, said, "she was greatly disappointed and complained about it. For a long time her postoffice directions to me were to deliver her letters to nobody but herself."  
LAMPHERE IS NERVOUS.  
Confinement and worry are telling on Ray Lamphere. He is unable to sleep at night and spends most of his time pacing back and forth through the cell corridor in the County Jail. When he is not walking the floor he is reading.

**CITY COMPTROLLER HOLDS OUT ON CITY AND SAVES NEST EGG.**  
[BY DIRECT WIRE TO THE TIMES.]  
DECATUR (Ill.) May 13.—[Exclusive Dispatch.] City authorities were astounded today when City Comptroller Robbins "confessed" that he had been holding out on the city revenues for eight years, and now has \$100,000 in bank to the credit of the city. No one knew his secret but the mayors who have served in that time.  
Robbins said he knew the Aldermen would spend the money if they had it, and he took it on himself to save for a rainy day in the city's affairs, or perhaps a new City Hall. The Aldermen, instead of being pleased, are furious, for they recently voted a bond issue of \$125,000 to rebuild the waterworks.  
Robbins withheld money coming to the city each year from the township road fund, and none of the Aldermen knew the city got revenue from that source. When his books were checked, he had no trouble in concealing the nest egg from the Aldermen.  
The Aldermen, who have been planning economy to meet the shortage in revenues through loss of saloon licenses, owing to local option, which went into effect a few days ago, are now figuring to see how they can get away with \$100,000 they didn't know they had.  
The people of the city are celebrating tonight that the money has been secretly saved.

## \$25 PER ACRE

Rich soil, level, inexhaustible water, heart of activity in San Joaquin Valley; 1/4 down; greatest land bargain in State.

PERCY H. CLARK CO.

311 H. W. Hoffman Bldg.

gram, purporting to be from his wife, saying that she was in trouble and asking him to help her. He came here in response to the message and was arrested. He was taken to San Pedro and arraigned yesterday. Ball was fixed at \$200, and, in default of the money, he was brought back to this city and locked up in the County Jail.

## STEVE ADAMS WINS POINT.

CHANGE OF VENUE GRANTED.

(BY THE ASSOCIATED PRESS.—P.M.)

TELLURIDE (Colo.) May 13.—Judge Shackelford today granted Steve Adams' petition for a change of venue in the hearing of the charge against him of murdering Arthur Collins, manager of the Snuggler-Union mine, who was assassinated during the strike of the Western Federation of Miners here, several years ago.

The case will be tried at Grand Junction in Mesa county, Judge Shackelford will preside. The next term of court in Mesa county begins June 25, and the date of the hearing will not be set until court opens on that date.

Steve Adams was brought from Idaho, where he had been on trial for the alleged killing of claim-jumpers and was also implicated by confession, afterwards repudiated, in the assassination of ex-Gov. Steiensen.

## KILLS IMBECILE SON.

German Farmer, Ashamed at Pitiful Sight, Shoots Boy and Then Commits Suicide.

(BY DIRECT WIRE TO THE TIMES.)

HARTFORD (Conn.) May 13.—[Exclusive Dispatch.] Ashamed and infuriated at the pitiful sight of his imbecile young son who could neither talk nor walk, as the last straggled in his invalid chair, Herman Nowack, 55 years old, a German farmer, living about twenty miles east of this city, today brutally shot the lad and then finished the job by shooting himself. Death in both cases was instantaneous.

## CASHIER SENTENCED.

EMBEZZLER GETS FOUR YEARS.

(BY THE ASSOCIATED PRESS.—P.M.)

PRINCEN (Calif.) May 13.—[Exclusive Dispatch.] A cashier of the First National Bank here was sentenced today to serve four years in Yuma penitentiary for embezzling last year, \$250 from the bank and Trust Company, of which he was cashier.

When complained on account of his shortage, he went to Los Angeles, thence to Calexico, where he was arrested two weeks ago. Actual shortage is said to be over \$2,000, but he was tried on a single count.

He will remain here a few days as witness in the case of a man who was indicted for the same crime.

## GIRL TIRES OF LIFE.

Mary Kliff, a young girl, tried to kill herself yesterday at her room in the Boston lodging-house on West Second street. She had had a quarrel with her sweetheart, and took chloroform. The occupant of the next room heard her groaning at an early hour yesterday, and called for help. She was found, finding her partly undressed on her bed, and unconscious. She was taken to the Receiving Hospital, where she soon recovered.

## CRIME BRIEFS.

Says Husband Tried to Kill Her.

SAN FRANCISCO, May 13.—[Hearst.] The sounds of a struggle coming from a house adjoining his residence at Page street, Frederick Dierke today called two policemen who entered the building. Here they found the wife of John Logan, a solicitor, lying on a bed with blood streaming from a gash in her forehead. She was also injured internally. Her husband was arrested and charged with attempting to murder her. Logan says she fell from the bed.

## Land Fraud Prosecution Nearly In.

WASHINGTON, May 13.—[Today's session of the trial of Messrs. Hyde, Benson, Diamond and Schneider for alleged land frauds, Dist. Atty. Baker said that at least four more days will be required by the government to complete its case. In chief, the defense is expected to occupy three weeks.

## DEFEATS MEDICINE CONCERN.

Girl Gets Verdict of \$5000 Damages for Picture and Testimonial Used Without Her Knowledge.

(BY THE ASSOCIATED PRESS.—P.M.)

NEW YORK, May 13.—Because a picture and a testimonial which she said she did not give, Miss Frances Wynne, a saleswoman in a department store, has recovered \$5000 damages. The picture, taken without payment, simply by allowing the photographer to display copies in his show window. Miss Wynne, with her friend, took advantage of the offer. Later she was astounded to see her picture in a newspaper advertisement of a patent medicine. She at once wrote to the publisher of the picture. This Miss Wynne denied and the jury found in her favor.

## ATTEMPT TO WRECK CONCERN.

Lumber Company Tells Commissioners That Railroad Raised Rates to Monopolize Business.

(BY THE ASSOCIATED PRESS.—P.M.)

SAN FRANCISCO, May 13.—The case of the Bridgeford-Cunningham Lumber Company against the McCloud River Railroad, now on trial before the State Board of Railroad Commissioners, took a sensational turn today, when the plaintiff submitted evidence to show that its rates had been advanced for the purpose of driving it out of business.

The purpose of the railroad in trying to drive the lumber company out of business, the Bridgeford-Cunningham people from the field is alleged to have sprung from a desire to monopolize the business for the McCloud River Lumber Company, which the railroad controls.

The case will be resumed Monday, when the railroad will have witnesses from Shasta county.

The activity of the commission has brought forward a number of protests from big shippers against rates now in force. In many cases the commission seeks to adjust the difficulties without formal hearings, where this is impossible regular inquiries will be conducted.

## NO ASSISTANCE IS REQUIRED.

HARRIMAN DISCUSSES PROPOSED BOND ISSUE.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, May 13.—[Exclusive Dispatch.] There was another meeting of the board of directors of the Union Pacific Railroad Company today, but no announcement was made, as was expected, regarding an offering of any part of the \$10,000,000 bonds recently authorized by the stockholders. Mr. Harriman said after the meeting: "Everybody is trying to do the Union Pacific financing, and I want it understood that Union Pacific does not need any financing." "It is Magnate's Declaration."

## MAY LOSE MILLIONS.

Western Transcontinental Railroad Considering Advantages of Going Out of Export Business.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, May 13.—[Exclusive Dispatch.] Owing to the Interstate Commerce Commission decision, the western transcontinental railroads are threatening to go out of Atlantic and oriental export business, from which they derive between \$5,000,000 and \$6,000,000 annually.

For more than a week the Transcontinental Freight Bureau has been in session here, with a view to determining what can be done in the crisis which confronts its members. One of the decisions was given with respect to the export carrying trade, and the other with respect to the rates on cotton placed goods. The commission has decided that the railroads must publish the inland proportions of export rates.

## REVENUE CARS IDEL.

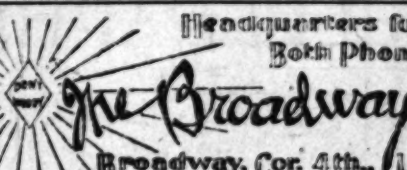

Over Four Hundred Thousand Now the Number, or Nineteen Per Cent, of Total Amount.

(BY THE ASSOCIATED PRESS.—A.M.)

NEW YORK, May 13.—There was a further increase of idle freight cars in the United States and Canada on April 29 over the previous high record established two weeks earlier. According to the report of the American Railway Association, there were 423,225 idle cars, an increase of 27,174 over April 15. The total increase for

# FREIGHT RATES ARE INVOLVED

Unimportant Suit May Decide Great Fight.

Federal Court Is Asked to Enjoin Roads.

Issue Will Serve as Precedent in the Contest.

(BY THE ASSOCIATED PRESS.—P.M.)

CHICAGO, May 13.—Upon the decision of Judge Kohlsaat of the Federal Court in the case of the Beatrice and Blue Valley Creamery companies against the Pere Marquette, Grand Trunk and Michigan Central railroads, may hinge the entire campaign against the advance in freight rates.

Buried in a comparatively unimportant injunction suit, in which the final arguments were heard yesterday, is the whole issue which will serve as a precedent in the coming great contest.

Judge Kohlsaat's decision will determine whether a Federal Court has power to enjoin railroads from increasing rates pending a hearing before the Interstate Commerce Commission, which alone has power to decide questions of discrimination and unreasonable rates, or whether it can sit only as a court of review after the opinion of the commission has been given.

The case in which Judge Kohlsaat's decision will decide this question is the application of the Beatrice and Blue Valley Creamery companies of Nebraska for a preliminary injunction to restrain the Michigan Central, Grand Trunk and Pere Marquette from advancing freight rates on cream and condensed milk.

But you said yourself last week that the company would need \$25,000,000," was remarked.

"Oh, what is \$25,000,000 to the Union Pacific?" was the reply. "The Union Pacific does not need any money."

"Does that mean that there will be no immediate offering of any of the bonds authorized?" was asked.

It will all depend upon the market," said Mr. Harriman.

There was a rumor in Wall street yesterday and today that there had been a hitch in negotiations by Harriman with the Rothschilds to place a portion of the issue abroad. And in some quarters this was attributed as the real reason for the delay. The action taken at the meeting was the declaration of the regular dividend of 2 1/2 per cent, on the common stock. The Southern Pacific also declared its common stock dividend of 1 1/2 per cent, on its preferred stock.

# DEALS FIRMLY WITH YAQUIS.

Mexican Government Says That Surrender Must Be Unconditional.

Previous Pacts Broken.

(BY THE ASSOCIATED PRESS.—A.M.)

CITY OF MEXICO, May 13.—The government has announced positively that if the Yaqui Indians surrender it will be unconditionally. The requests of the chiefs for a treaty carrying certain privileges and exemptions are positively denied as in the past.

Several peace arrangements with the Yaquis have been violated by the Indians, who until they have a money sufficient to buy arms, and return to the field.

After the signing of the treaty of 1907, the government at great expense provided the Indians with lands, tools,

# STILL ESTRANGED.

GIRL FAILS TO CLAIM ESTATE.

FLORETTA WHALEY, WHO RAN AWAY, IS ABSENT.

Was Expected in Court Yesterday When \$25,000 Worth of Property Left by Her Father Was Settled. Grandmother Is Willing to Send Money for Her Return.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, May 13.—[Exclusive Dispatch.] Floretta Whaley, who eloped with Rev. Jere K. Cooke, rector of St. George's Episcopal Church at Hempstead, was not present in the Surrogate's Court at Mineola, L. I., today on the occasion of the final accounting and judicial settlement of the estate of her father, John T. Whaley.

It was rumored that the girl had returned to her grandmother's home in Hempstead last week and would come to Mineola today, but as a matter of fact the grandmother has not seen the girl since she fled with Cooke.

Mr. Whaley died in Hempstead on January 25, 1906. In his will he left to his daughter, Mrs. Keziah Whaley, a life interest in his estate, about \$25,000. At the death of Mrs. Whaley the estate goes to the daughters, Floretta and Edna A. Whaley.

Mrs. Whaley was not in court, but was represented by an attorney who stated that the girl's whereabouts was perfectly willing to send Floretta money enough to bring her and her child home, but that no cash would be sent her for any other purpose.

# NEPHEW OF PRESIDENT.

Martin Van Buren Dies in Poverty in Cheap Lodging-house in Albany.

(BY DIRECT WIRE TO THE TIMES.)

ALBANY (N. Y.) May 13.—[Exclusive Dispatch.] Martin, nephew of President Van Buren, died in a cheap lodging-house in green street at the age of 38, and was buried yesterday in the White House with his uncle, the President.

Van Buren led a quiet and secluded life, barely managing to exist in his courtly and expensive days at the White House with his uncle, the President.

# CHASE OF BRIGANDS ENDS.

Russian Punitive Expedition Into Persia Suspends Operations at Request of Commissioners.

(BY THE ASSOCIATED PRESS.—A.M.)

ST. PETERSBURG, May 13.—At the urgent request of Persian commissioners, the punitive expedition sent by Russia into Persian territory to quell the brigandage in the vicinity of Belucan, has suspended its operations.

The expedition has already burned eight villages guilty of harboring brigands.

The Persian commissioners asked time to investigate and they promise to deliver the guilty parties to justice and indemnify the widows and children of the men who have lost their lives.

# "NO GOOD," SAYS PRINCE.

Italian Royalist Declares Best of Nobility Do not Come to America to Wed Heiresses.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, May 13.—[Exclusive Dispatch.] "None of the best nobility come to America to wed American heiresses. Those who do are not of the best class; they are no good."

Prince Rodolphe Kristalesco of Italy, who sailed for home today on the North German-Lloyd liner, Princess Cecilie, says he does not believe in titled marriages for American girls.

"Of course," he said, "if they are love matches all well and good, but not many of them are. It is quite as foolish of an American girl to marry for a title as it is for a Count or a Duke or a Prince to sell his title for money."

"These marriages are most deplorable, execrable taste, and how shocking many of them have ended."

# BRINGS SUIT FOR DIVORCE.

Daughter of Mayor Johnson of Cleveland Begins Action, Alleging Cruelty and Abandonment.

(BY DIRECT WIRE TO THE TIMES.)

CLEVELAND (O.) May 13.—[Exclusive Dispatch.] Alleging cruelty and abandonment, Bessie Johnson Mariani, daughter of Mayor Tom L. Johnson of Cleveland, has brought suit for divorce here. Signora Mariani's petition is brief, not going into details.

A few weeks after the wedding, Signora Mariani left her husband in the Strand Hotel, New York, where they had spent their honeymoon, and returned to her father's home

# JOE GANS IS HOT FAVORITE.

San Francisco Sports Cannot See Rudy Unhols.

Don't Give Him Even a Ghost of a Chance.

But Eager Anxious to Bet His End of Purse.

# NORTHERN BOAT STARTS SOUTH.

DELAY GIVES GWENDOLYN II A CHANCE TO VISIT.

Los Angeles Yachtsmen and Members of Civic Bodies Discuss Ways and Means to Pay Expenses of the Race—Several Local Boats Available With Financial Assistance.

BY DIRECT WIRE TO THE TIMES.

SEATTLE, May 13.—The yacht Gwendolyn II started today on its long voyage to take part in the Trans-Pacific race from Los Angeles to Honolulu. The postponement of the race did not delay the start, but instead of going directly south, the yacht will stop off on route, and the question of whether the postponement will prevent the entry will be taken up later.

Unless the boat is able to get in as good condition as it is now after extensive repairs, it may not enter the race, but the Johnson boys are going south with the purpose of taking part unless conditions prevent.

HOLD MEETINGS.

YACHTSMEN ARE ACTIVE.

Two meetings were held yesterday by the local yachtsmen and those interested in the proposed race, and the subject was discussed from various points of view. It is estimated that it will be necessary to raise about \$10,000 for the race, and of this sum about \$1000 will cover the incidental expenses of the South Coast Yacht Club in getting the race started. If the entire sum is secured the remaining \$9000 can be used in assisting the several local owners to fit their boats for the event.

Representatives of the San Pedro Chamber of Commerce, the South Coast Yacht Club, and the Los Angeles Chamber of Commerce were present at the meetings, and it was finally decided to lay the matter before the Chamber of Commerce. Of the required \$10,000, Frank Garbutt promised to contribute \$2500; H. H. Sinclair will contribute \$2500; the San Pedro Chamber of Commerce \$2500, and James Slauson, \$2500. This leaves \$2500 to be raised.

Garbutt estimates that to fit out his yacht Sidsbald for the race the sum of \$4000 or \$5000 would be needed, and he will give \$2500 of this amount. Mr. Sinclair said the repairs to his yacht, Lurline, would cost \$2500, and he would contribute \$500. Neither of these men felt like bearing the entire expense of fitting their boats, but Garbutt was willing to pay one-half the expense and Mr. Sinclair one-fourth of the amount of the expense on their own boats. This would leave \$2500 for the Garbutt boat and \$2500 for the Lurline to be raised before either of these yachts can be made ready.

Yachtsmen said that some decision must be arrived at within the next two weeks, for two or three weeks will be required to get them into shape.

Those present at the meetings yesterday were: R. K. Rivers, Louis Hansen and J. W. Weidt of San Pedro; A. P. Fleming of the Harbor Commission; R. P. Spaulding, Frank Garbutt, A. L. Best, H. H. Sinclair and V. E. Stewart of the South Coast Yacht Club; C. A. Sumner and James Slauson of the Los Angeles Chamber of Commerce; J. D. Ryan and Lloyd Childs of the Honolulu Promotion Committee.

Garbutt stated that if the entire amount of \$10,000 could not be raised, he would contribute \$100 toward the expense of fitting out any one boat, and H. H. Sinclair and James Slauson will give \$100 and \$50 respectively for the same purpose.

Several citizens were present from Long Beach in an unofficial capacity, and asserted that their city would cooperate with San Pedro in the "Harbor Day" celebration that is to be given at San Pedro, July 4, of which the proposed yacht race will be one of the features, if it becomes a reality.

TRIBESMEN INTEND TO FIGHT.

British Punitive Force Near Peshawar: Mohmands Send Families Away.

BY THE ASSOCIATED PRESS.—A. M. J. SIMLA, May 13.—The British punitive force against the Mohmand tribesmen, which consists of two brigades under the command of Maj.-Gen. Sir James Willcocks, has arrived at Sand, twenty miles north of Peshawar.

It is evident that the tribesmen intend fighting, for they have sent their women and children away and have taken up positions in the hills.

Good Pool Game.

Willcox was unable to play his scheduled game of continuous pool last night at Morley's rooms on South Spring street, and Fortune took his place, losing to Spitz by a score of 100 to 75. It was a steady, close contest all the way, without any particularly brilliant features. The high run, fifteen, made by Spitz, Debaer and Endicott will play this evening. The games so far have drawn good-sized crowds.

FOR BIG STAKES.

ATKINS IN METROPOLITAN.

TOP WEIGHT AND WINS THE RICH CLASSIC.

BY THE ASSOCIATED PRESS.—P. M. J. ST. LOUIS, May 13.—Jack Atkins, a weight of 135 pounds, won the Metropolitan Handicap, a race of 1 1/4 miles, at the Metropolitan Park this afternoon. Re-entered James R. Keene's horse, who was second, while Don Johnston, who was having little show, won the time was fast, 1:28 1/2. The race was for the second round for the race on the same course.

Atkins' performance was the best of the race. Starting in last place, he ran on the far outside, he kept the hardest sort of pace, hardly as fast until the end of a mile was in sight, then he stepped forward like a bolt. At the end of the race he was nearly a mile ahead of the second place horse.

Atkins was badly interfered with at the start and was nearly a mile behind the leader.

# GREAT BODY WILL MAKE GREATER TALK.

## Conference on Natural Resources at the White House Will Be Most Important Deliberative Event Since the Constitution Was Adopted.

(SPECIAL CORRESPONDENCE OF THE TIMES.)  
WASHINGTON, May 13.—History will be made at the White House conference on natural resources, unless all signs fail. For history-making the conditions are remarkably favorable. Never before has a President of the United States conferred with the Governors of the States. Never before has the White House, with its long record of social and state functions, sheltered a large convention called for the consideration of a great public issue. And never before has the whole broad question of the conservation of this country's natural resources been brought before a great deliberative body as the sole subject for consideration.

The reception accorded this project indicates that the people of the country expect definite results of a far-reaching character. But no cut-and-dried programme will be presented. After hearing from experts the condition which the country is facing the Governors and delegates will themselves decide whether anything ought to be done, and what. Some have suggested the advisability of forming a great national organization to carry forward the plans originated at the conference. The probability is that, at the least, some basis will be laid for future cooperation between the Federal and State governments in a vigorous policy of conservation, for one thing which will be shown most forcibly is that neither the States nor the Federal government can make satisfactory headway independently.

**HISTORY REPEATS ITSELF.**  
The present situation is much the same as was faced just before the adoption of the Federal Constitution, and the more enthusiastic believes the conference will have just as far-reaching results, and become quite as historic. It presents a list of all the canals in the country, and tells which is owned or controlled by railroads. It presents, too, a list of the abandoned canals, and shows why. These are only a few things shown in this work, which is really a great encyclopedia of the waterways of this country. It represents a great deal of hard work on the part of the bureau of corporations, which was chiefly in charge of its compilation. It contains, in addition, several special articles by Federal experts on topics related to natural resources.

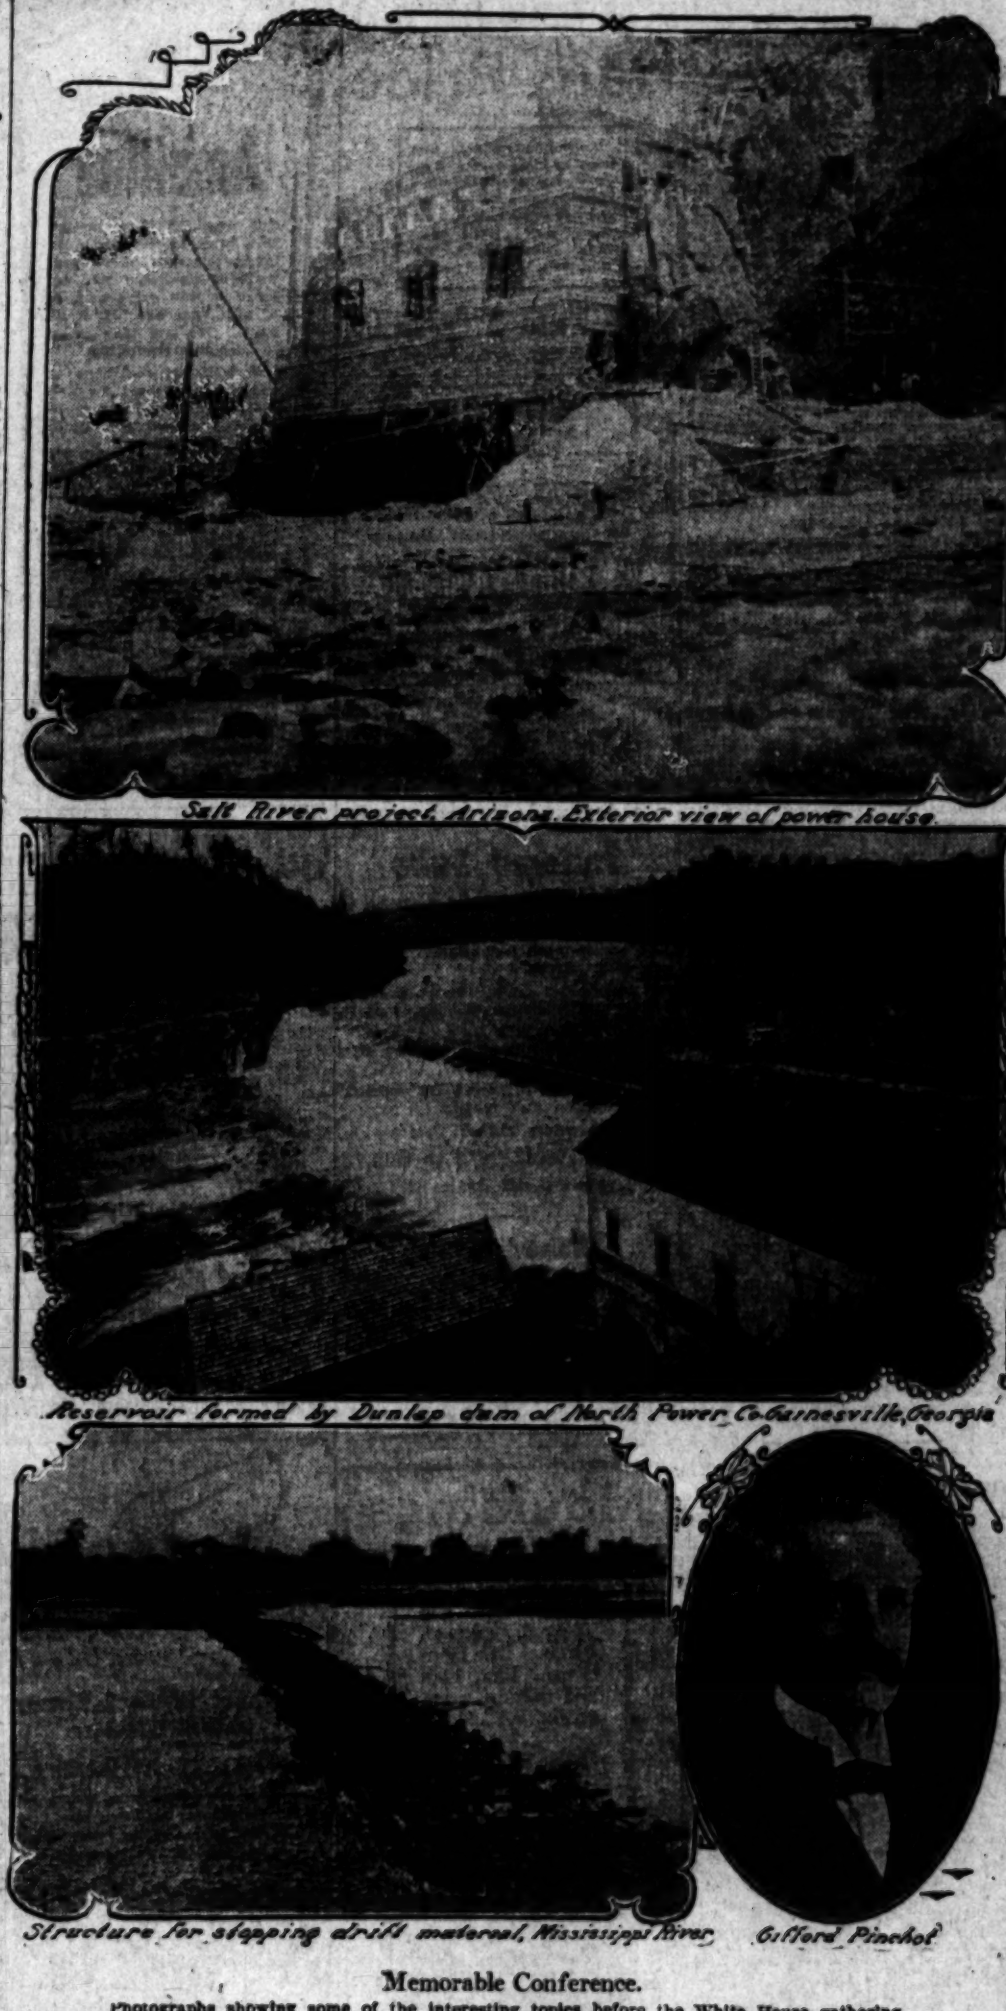

The second publication will be devoted to a history of the conference. The proceedings will be reported stenographically, and will be edited and published in book form, with illustrations.

**PRESIDENT WILL RECEIVE.**  
The conference will open Wednesday morning, May 12. As the Governors arrive at the White House, they will be received by the President. Thereafter the President and the Governor will join the delegates in the East Room, and the President will open the conference with an address. He will probably be followed by Andrew Carnegie, who will speak on "Conservation of Natural Resources." James J. Hill, who will be heard later, will present his estimate of the railroads, extension of which will be demanded by the future needs of the country, and their cost. He will discuss the important questions of the terminals, which is giving rise to no little anxiety, and will consider the possibilities of cooperation between rail and water transportation. He will particularly show the necessity for waterway development to meet transportation requirements.

The subject of navigation will be presented by Prof. Emory R. Johnson, professor of transportation and commerce in the University of Pennsylvania. He will give figures on the cost of water transportation, will show its possibilities and will describe its decline in this country in recent years. "Power" will be considered by H. S. Putnam, electrical engineer, New York. He will present estimates of the power now developed in this country, and the possibilities of development of water power in the future. He will also present estimates of the amount of power in the United States.

**UNIQUE ARRANGEMENT.**  
At the center of the framework, and between the maps, there will be a unique arrangement for the display of illustrations. At a convenient height will be a rectangular opening, three feet high. To fit into this a large number of hand-colored transparencies have been made. The pictures closely accord with points which will be made in addresses, and the appropriate transparency will be revealed at the proper moment in the talks. The light for it will come from a window at the rear of the framework. The pictures will be changed with as great ease and celerity as is possible in the use of this method.

This method of illustration is believed to be entirely new in public meetings, and is not likely to be duplicated very often because of the labor and skill involved in making the transparencies. Originally these are photographic prints of large size made by hand, and mounted in front of ground glass, to secure the proper lighting.

Memorable Conference.

photographs showing some of the interesting topics before the White House gathering.

and gas production. He will show how the coal supply can be conserved, and consider possible substitutes for fuel. The discussion will be led by John H. Patterson, president of the United States Coal and Coke Association. The Governors and delegates will have opportunities to ask questions and make suggestions. After the experts have been heard they will consider the program of action, and will formulate a policy of conservation.

## CONSERVATION IS BATTLE CRY.

**PERMANENT ORGANIZATION OF STATES AND NATION.**  
Governors of Forty-four States Meet With President, Cabinet, Justices, Lawmakers and Experts at White House to Discuss Best Method of Conserving Resources.

(BY THE ASSOCIATED PRESS-P.M.)  
WASHINGTON, May 12.—Two ideas, destined to mark a new era in America's future, resulted from the first of the three days' conference at the White House today, in which President Roosevelt, the Governors of forty-four States, Cabinet officers, Supreme Court Justices, Senators, Representatives and experts are participating in efforts to reach conclusions on the best methods of conserving the natural resources of the United States. The first is that a permanent organization by the States and the nation is necessary and will likely result from the present conference, to accomplish the end sought.

The second, suggested by Secretary Root, is that there is no limitation by the Constitution to the agreements which may be made between the States, subject to the approval of Congress. The two ideas, fully developed, it is predicted, would result in the conservation of the energies and resources of the nation through uniform and unconflicting laws, both national and State. The idea that the conference should be perpetuated developed in the form of resolutions offered for later consideration by Gov. Glenn of North Carolina and Gov. Folk of Missouri. There were many others, but a preliminary move to save time sent them to a committee for consideration.

into the streams, polluting the rivers, denuding the fields and obstructing navigation. These questions do not relate only to the next century or to the next generation.

"It is time for us now as a nation to exercise the same reasonable foresight in dealing with our great natural resources that would be shown by any prudent man in conserving and wisely using the property which contains the assurance of well-being for himself and his children."

## KILL PRISONERS TRYING ESCAPE.

**GUARDS SLAY TWENTY-EIGHT IN ATTEMPTED JAILBREAK.**  
Horrible Scene of Slaughter at Government Prison at Yakaterinoslav After Bomb Tears Hole in Wall. Band of Conspirators Wiped Out. Thirty More Wounded.

(BY THE ASSOCIATED PRESS-P.M.)  
YAKATERINOSLAV, May 12.—The attempt made yesterday by prisoners to break out of the government jail here, after making a breach in the wall of the guard room with a bomb, was a complete failure, but it brought about a horrible scene of slaughter in and around the jail building.

Twenty-eight of the prisoners were shot to death by the guards, and another of them has since died of his wounds. Thirty others were wounded, and it is expected that several of these will die.

As soon as the bomb was thrown, one of the detachments of prisoners charged the guard and the prisoners attempted to climb the wall. Twelve of these men were killed instantly, while others were wounded.

At the same time, a second body of prisoners rushed to the kitchen, and, seizing knives and other weapons, attempted to cut their way to liberty. They were surrounded and killed to a man by the soldiers who had been hastily summoned by the prison authorities.

The explosion threw the whole prison into a state of panic. The inmates who took no part in the plot gathered in the windows overlooking the courtyard. They were ordered to draw back, but refused, whereupon the guards fired volleys into the open windows. The prisoners were ordered to get away from the windows, but they were too late, and many of them were killed.

So far as is known, no one succeeded in getting away. The chief warden of the prison is among the wounded.

**STAGGERING.**  
**HIS SHORTAGE IS ENORMOUS.**  
BANK CASHIER TAKES MILLION AND A QUARTER.

Examiner States Amount Is Probably Even More—Prisoner Makes Confession Which May Lead to Arrest of Others—Prisoner Partially Restituted.

(BY DIRECT WIRE TO THE TIMES.)  
PITTSBURGH (Pa.) May 12.—(Exclusive Dispatch.) The most sensational chapter in the Allegheny National Bank scandal was added today Tuesday when George Toner, a rich manufacturer, bondman for William Montgomery, defaulting cashier, turned Montgomery over to the United States authorities, withdrawing bail.

Toner made this move on hearing that Montgomery had announced that he would commit suicide, and on being informed by National Bank Examiner William L. Folds that the default of Montgomery would reach at least \$1,500,000. The United States authorities, then decided to increase Montgomery's bail to \$100,000, and the cashier, with the prospect of jail, before him, was sweating four hours in the office of the United States District Attorney, Richard R. Quay, son of former United States Senator Quay, entered bail for \$100,000 and Mr. Toner then resumed bail for \$50,000.

Montgomery unhesitatingly during the four hours he was in charge of the office. In the process of the confession, he told part of the story of looting the bank. Stenographers took down his remarks, which will be used in an effort to reach as much as possible of the plunder.

Only part of the confession was given out Tuesday by Bank Examiner Folds, which was that Montgomery had exonerated fully all politicians whose names at various times had been brought into the case. He gave information which probably will result in the arrest of several other persons.

Before the case is over it probably will outrival any similar case ever brought to court. Mr. Folds stated that, although the default of Montgomery would reach \$1,500,000 and probably more, the capital of the bank is intact. Already about \$500,000 has been recovered on notes and stocks.

Since the first arrest of Montgomery, he made arrangements to move to the bank every penny of his own fortune, which is estimated at about half a million dollars. On Saturday last he turned over to the bank all that was left of the shares of the Tonopah Extension stock. Montgomery also turned over to the bank today 1200 shares of stock of the Allegheny National Bank. The stock is worth \$120 a share, the total value of Montgomery's holdings being \$144,000.

## MODISTE SUES FOR BILL.

Wants Pay for Trouseaux Furnished Widow Who Married Army Officer.

(BY DIRECT WIRE TO THE TIMES.)  
OMAHA (Ill.) May 12.—(Exclusive Dispatch.) Suit for \$100,000, the value of a wedding trousseau, filed today against Mrs. Lois G. Doane, formerly Mrs. Rustin, who was married in March at Riverside, Cal., to Lieut. Will Doane. To cover the debt an attachment has been issued against the Rustin home in Omaha.

The itemized bill, which accompanies the petition, includes an imported gown which cost \$200, the wedding gown at \$100, a three-piece suit for \$100, a waist at \$20, a tan coat at \$50, a pink gown at \$35 and a number of other items.

Mrs. Doane is now with her husband at Fort MacDowell, Cal., but her regiment has been ordered to Alaska for service. The plaintiff in the suit is an Omaha modiste, Miss Jessie Fox.

The suit was brought here in order that the real estate belonging to Mrs. Doane might be attached.

If You Want to Go East C. Haydock, Agent Illinois Central R.R., 118 West Sixth.

440-448 South Broadway

**Loftus & Davis of Goldfield** hold a mortgage upon the property as security for \$50,000 advanced to erect the new mill. Nothing more will be done at the mine, at least until the mill on the adjoining Homestead has been proved to work successfully. At the time of the excitement in the Bullfrog stocks, Gold Her sold up as high as \$1.15, while yesterday's quotations in San Francisco closed at 1 cent to 9 cents. Other stocks of the district were also weak. Montgomery-Shoshone selling down to 90 cents. Tonopah Extension, Schwab's first Tonopah promotion, stood at practically the same figure.

**Mining at Regent.**  
A local company has recently been organized to acquire fifty-eight acres of promising mineral ground lying between the Fenrose and Sideline claims in the Regent district, near Hawthide. The company is known as the Hawthide Jumbo Mining and Milling Company, and will, it is said, immediately commence the development of this ground, and a lease held upon the Hawthide claim, lying between the Hawthide and Last Chance, at Hawthide. The work will be in charge of engineers working under W. H. Smith & Co. of this city. The Regent district is said to be showing well with development, and it was on the Royal Tiger that a recent discovery of tellurium ore was made. The Stimson and Bushwhacker leases in the same neighborhood are also said to be looking well. The Hawthide Golden Eagle Mining and Milling Company, owning two leases to the north of the Royal Tiger, are also actively at work.

**THE OIL INDUSTRY.**  
**ASSOCIATED'S ISSUED STOCK.**  
**GENERAL MANAGER PORTER SAYS \$20,000,000.**  
Official Statement to That Effect Given San Francisco Exchange and Published—Union's Cusher Busy at Santa Maria—Retaries in That Field.

That the outstanding stock of the Associated is over \$20,000,000 or 200,000 shares of \$100 par value, just stated by The Times some weeks ago and also as given by the daily sheet of the San Francisco Stock Exchange, was confirmed by W. S. Porter, general manager of the Associated, during his visit to Los Angeles a few days since. The statement of the local exchange sheet that only something over 210,000 shares are out, is entirely misleading and incorrect. "The figures at San Francisco are correct," said Mr. Porter to The Times. "We have never given any to the Los Angeles exchange as far as I know. We have had this amount out for about four years. How do people suppose we have been paying for all the land we have been buying?"

**Kern River and McKittrick.**  
The Bald Eagle, Jr., company has leased the north ten acres of the northeast quarter of section 26-28, the extreme northwest corner of the proven belt, to W. Walker of Los Angeles and O. C. Heck of Oil Center, for ten years on 20 per cent. royalty. \$4000 bonus with option of purchase during lease for \$3500 an acre. The tract, but its value cannot be stated. It has been pumped very little, if at all. Drilling must start in ninety days and within eighteen months four holes must be finished.

**Santa Maria's Progress.**  
The big well of the Union brought in on the Squier's lease last December is still doing a splendid stunt. This well came in spouting oil over 100 feet in the air and flowed for a month at the rate of 10,000 barrels per day; for several weeks it has been doing 3500 barrels daily without sign of diminution. The Union recently completed two wells on its Newlove tract, both being good producers, one of them going about 1000 barrels per day.

Roscoe Stephens has been successful in shutting off the water that both-ered some of the Western Union and Graciosa wells for awhile and that resulted from drilling a little too deep in an effort to secure still more oil-bearing shale. The Western Union and Graciosa properties are in the southern, or Los Alamos, portion of the field, and any water which appeared in the wells on these properties could not have effected the northern and principal portion of the field, which is divided from the Los Alamos end by a high ridge, which marks in a general way the course of the anticline of the territory. The rotary drilling rig, which is used almost entirely in Texas, Louisiana, and Oklahoma, is making good headway in the Russian, Romanian and East India fields, is securing a foothold in Santa Maria. The Palmer, drilling about four miles east of the main field, is using one satisfactorily, and it is understood that the Central Union, operating in the northern part of the main field, next to the Brookshire and Pinal, is about to change to an up-to-date rotary. The Central Union's hole is down about 700 feet, with 12 1/2-inch casing; at 620 feet this hole has 14 1/2-inch casing, a larger size than usual for the depth. Owing to the completeness of its equipment, the Central Union can make only the essential portions of a rotary rig, and the company considers that the outlay would be more than amply offset by the saving in casing made in rotary drilling and of the time required to bring its well to production. Very encouraging progress is being made in the territory lying easterly of the main Santa Maria field, the Palmer company having the promise of a fine well on the Standell, located about five miles east of the main field; this well is down about 7100 feet, and in productive oil sand. The Foxen Oil Company, still farther east, is down 2200 feet after passing through a formation carrying a heavy oil, almost like liquid asphaltum; the drill is now in brown shale, and a strong gas flow is being emitted; it is expected that a few hundred feet more will complete a producing well. These eastern operations indicate that soon the width of the absolutely proven area of the Santa Maria field will approximate ten miles, and confirm the conclusion long since reached by all having expert knowledge of the field, that it is a

**Annual May Underwear and Garment Sale Starts Today**  
WITH A HOST OF SPLENDID BARGAINS, every one of which represents a big saving for prompt buyers. Seasons come and go regardless of conditions, and it behooves us to sell merchandise bought for Spring trade during Spring months, even though we are compelled to forfeit the profit; in many instances we take a loss.  
IN MOVING THIS BIG STOCK WE ARE MAKING ROOM FOR OTHER MERCHANDISE ordered and coming. EVERY ARTICLE ON SECOND FLOOR WILL BE REDUCED during the sale. The most GENEROUS REDUCTIONS will be on costumes, tailored suits, separate skirts, petticoats, shirt waists, corsets, undergarments, children's dresses and infants' wear. In many cases the cut means a saving of one-half to the purchaser, as price quotations below indicate. We propose to break all previous "Lane Sale" records and establish a new standard in Los Angeles for wide-awake retailing. Needed extra sales force will enable us to give the usual prompt and satisfactory service.

**Pretty and Ever Popular Lingerie Dresses**  
Lingerie dresses of excellent design and quality, neatly trimmed and tucked with rows of lace and insertion on skirt. Yokes are of lace insertion and allover lace. They come in white, pink and blue of sheer swiss mull and French batiste and every one will be sold at a sacrifice. The prices range:

# NURSES ENTERTAINED.

Los Angeles County Association is Host at Evening Reception at the Chamber of Commerce.

Nurses to the number of 250, from all portions of the United States, gathered last evening in the Chamber of Commerce assembly hall at the invitation of the Los Angeles County Nurses' Association, and enjoyed an informal programme of music and speaking.

The nurses are sightseeing after the San Francisco national convention of last week and the Angeles Hotel is their local headquarters. Mrs. Harriet W. Pahl, State president of the nurses last year, and a Los Angeles delegate at the convention of last week, had charge of last night's affair.

In a short introductory speech, Mrs. Pahl welcomed the nurses to Los Angeles and offered the hospitality of the local association. Miss Anna Damer, president of the Nurses' Alumni Association of the United States, whose home is in New York, spoke enthusiastically of the reception tendered the visiting delegates throughout California and also touched on the work of the national body for the ensuing year.

A quartette of Hawaiian singers told in song the story of their native land. Several prominent nurses also spoke briefly, and after they had viewed the various exhibits of the Chamber of Commerce, refreshments were served in the main hall, which, like the various rooms of the third floor, was decorated in roses, lilies and other flowers.

AMBITION.

# PLAN A GREAT SCHOOL OF LAW.

WESTERN ESTABLISHMENT IS TO RIVAL HARVARD.

Scheme in Detail Will Be Presented to Bar Association by Professor of University of California—Special Attention Will Be Paid to Western Legal Problems.

A great graduate school of law, one taking rank with Harvard or Columbia, is the scheme which will be presented to the Bar Association of Los Angeles tomorrow morning by Prof. George Henry Hope, of the University of California. The local judges have specially favored him by granting a postponement of the morning session of the courts for an hour, during which he will explain the idea to the members of the bar and the lawyers of the city. He is delighted with the cordial support he has already met here. This is not a mere San Francisco

move, he was particular to point out yesterday, but one calling for the support of all the State.

The proposed western legal school will emphasize Pacific Coast phases of law as they develop problems peculiar to the mines and water. It will draw men from all over the West and will emphasize also the relation of the lawyer to the State by making a training ground for citizenship as well as preparing the student to be a member of the bar.

Prof. Hope explained that the scheme had its inception two years ago, when Mrs. Boalt, widow of John Boalt, gave \$100,000 to the University of California toward a law building to carry out the plan of President Wadsworth to establish a great western school of law on the campus at Berkeley.

A building suitable to house such a school will cost at least \$150,000. The moral support and encouragement of the lawyers of the State is now being sought. It is proposed that they shall create a fund of \$50,000 or more, which shall go toward establishing a law school, which will be a part of the building. This will consist of a group of rooms occupying the entire second floor of the Boalt structure, and will include a great law library of 50,000 volumes. In connection with the school it is proposed to establish a law review particularly devoted to western phases of the law.

President Wheeler has in mind a school, whereby men who have a college preparation and are of mature years, shall be given the best legal education that an American college can afford. To carry out the project properly will take a large endowment and gifts from various sources are expected.

Already some progress has been made toward this end. In addition to the \$100,000 given by Mrs. Boalt and the \$50,000 expected from the lawyers of the State, a fund of \$20,000 will be available for the law library. There is also definitely in sight nearly \$200,000 from a private source for law professors. It is anticipated that other gifts will serve to make the endowment at least \$1,000,000, which will be necessary to create a great school. Directly the lawyers of the State have pledged the \$50,000 construction will be started.

DEATH OF MISS HAYES.

Death from heart trouble overtook Miss Margaret Hayes, 65 years old, early yesterday morning at the home of her sister, Mrs. Mathew Fitzsimmons, 1111 S. Main St., Los Angeles. Miss Hayes was well known in Catholic circles here and was a member of the Third Order of St. Francis. The funeral will be held tomorrow morning at 9 o'clock in St. Joseph's Catholic Church and burial will be in Calvary Cemetery.

EXCURSIONS POSTPONED.

At a meeting of the directors of the Chamber of Commerce yesterday was decided to postpone three "glad hand" excursions that had been arranged for the near future—those to Portland, Ore.; to Lake City and to the

# FORTUNE FOR TWO MINUTES.

Property Owners Aroused by Assessment.

Denounce Plans for Cut-off to Third Street.

"Uncle Billy" Workman Gets Chilly Greeting.

There was a red-hot hour in Catholic Hall at Fourth and Broad streets last evening when property owners on Fourth street met to protest against an assessment of \$148,000 for the opening of a new street connecting Fourth and Third streets on a tangent about a block and a half long, ending at Alameda street. Ex-Mayor Workman tried to tell what a good thing the improvement was, but was howled down and not permitted to speak without interruption.

Dr. Nestor Young was the chairman and he had his hands full for there was a rapid-fire number of volunteer speakers who wanted to impress upon all the other speakers just what an "outrage," "injustice," "hold-up" and "robbery" this assessment was.

"I own a little home with a frontage of sixty feet on Fourth street," asserted Horace Hanna, "and my assessment is \$11,117, and it isn't worth 10 cents to me."

John Felthouse stated that this "valuable manufacturing district," as it was spoken of, was covered with the shackles of colored people in a saloon. He called it the most "sinful" street and asserted that he would rather pay his share of the assessment to "have this thing knocked endways."

SAVAGE ATTACKS.

"But if we were all millionaires we wouldn't pay a cent!" shouted the speaker, and there was wild applause. "I for one won't be held up," he added, and there was more applause.

In fact, there was applause every time some speaker made any savage attack on the assessment. Some of the speakers claimed it was all for the benefit of the railroad company, which would get a cut-off by way of this street and save two minutes' time.

Many of the speakers stated that the City Council was unfair in creating the assessment district only among those who owned property fronting on Fourth street and 150 feet back for fifteen blocks from the point of improvement. They thought the property owners on Third and Fifth streets would benefit almost, if not altogether, as much as those on Fourth street, an assertion which the Third and Fifth streeters did not seem to appreciate.

A committee, composed of Dr. Atwater, George A. Bancroft, F. A. Montee, Horace Hanna and E. Fleming, charge of the petitions of protest, made a report, and a recess was taken to give property owners time to sign them. This was done by almost all present who had not done so before.

MAY GO TO COURT.

A young attorney named Clark, of Collier & Clark, explained that the time for protests passed about two years ago. He became quite eloquent and spoke of the City Council sitting under the fig tree of their own legislation. "The only hope of the property owners, he said, was to find a legal flaw in the assessment, and attack it in court, and said that an action would be begun in the Superior Court if the Council did not vacate the assessment."

"I won't enter into debate on the merits of the improvement," concluded Mr. Clark, "though I should love to, for debate is ingrained into the very fiber of my being."

Mr. Lang, who said he was one of the oldest settlers on Boyle Heights, and had built the second house on Broad street, denounced the assessment in a broad German accent, which became broader as he became excited. "I'm against such things, I swear to it," he shouted, and then added, "I guess I'm done." (Laughter.)

A Mr. Black stated that he owns a lot near Molino street in the fact which he had bought two years ago and had been trying to sell ever since. He stated that it was assessed for this improvement at \$344. Speaking at Mr. Workman, he said if he could afford to give parks and a railroad to the city he would not mind it.

"UNCLE BILLY" EXCITED.

Up jumped "Uncle Billy," and declared he was being struck at, and he "called" Mr. Black down. The latter declared he meant no discourtesy, but that if Mr. Workman had taken offense, he would apologize.

"Why, if this improvement goes through you will get \$100 a front foot for you Mr.," asserted Mr. Workman. "Will you give it to me?" asked Black.

"I'm not making you an offer, I'm telling you a fact," cried Mr. Workman, and for a minute it looked as though there would be another warm old time.

But Chairman Young calmed things down and told how he had started from St. Louis to drive an ox team to California in 1846, and he had taken him four years, but he had gotten here, and had been here ever since. He didn't intend to pay that assessment if he could help it. Then "Uncle Billy" said he would be driven or taken across the plains, but it had taken him only six months, but that the assessment was a good thing. Resolutions were passed thanking the pastor of the Catholic Church for lending the hall to the protesters, and to Chairman Young for presiding. The lawyers will now take a hand, and the protests will be presented to the Council next Monday morning.

STRICTURES JUSTIFIED.

A delegation from the Los Angeles Realty Board appeared yesterday before the Board of Directors of the Chamber of Commerce and discussed the matter of unscrupulous real estate dealers. The directors agreed that the strictures of the Realty Board were well founded.

A Lazy Boy's Invention.

The long-handled shovel has made over \$50,000 for its inventor, and the inventor was a lazy, shiftless boy of 17, named Reuben Davis, whose father lived in Vermont a few times. He set Reuben to digging dirt and loading it on a wagon, and the short-handled shovel made the boy's second fortune. He took out the short handle and substituted a long one, and found the work much easier.

When the father returned home Reuben got a thrashing, but after the old man had used the shovel himself he said that it was a good thing, and got it patented. They are now manufacturing almost by the million. That factored shovel turned out to be a good thing for the "lazy" family.

Sample Shoes at Factory Prices.

# POLICE PLAY TRUMP CARDS.

ALLEGED SWINDLING GAME MAY BE LOSING ONE.

Charge That California Building and Land Syndicate Worked an Old Scheme to Catch "Suckers" and Detectives Apply for Warrant for Arrest of Manager of Company.

Handsome furniture, beautiful embossed stock, attractive advertisements and obliging employees are alleged by Captain Ingram and Capt. and taken under police inspection yesterday, when J. W. Bloch, an employee of the company, was taken in charge by Detectives Ingram and Carson and taken to Capt. Flammner's private office.

Following an unhappy session with the captain, Bloch was permitted to leave. Detective Carroll was then sent to the prosecuting attorney's office to request a warrant against C. Wiesner, alleged to be the manager of the concern, and Deputy Pearson took the case under advisement.

The company advertised for any one who had money. No one was barred. The advertisements were attractive, and read:

"Wanted—Bright young man for position of trust by local corporation; rec'd salary \$1000 per month. Must be 'best' said Capt. Flammner, 'and then they'll be in the country as typical bunco ads. They are known to appear in the local papers I sent men to visit the office. My men were subjected to an examination and told that if they put up the money they would receive a position of \$75 or \$100 a month."

"A man was given a position with the company at \$75 a month. At the end of the month he was paid the money but when he wanted to work a second month he would be told that there was no work to be done and that the business would not warrant the payment of so high a salary. He would be frozen out by the slow process. They hung about the office until they realized that they had been tricked and then they gradually dropped out. I have in my possession the evidence of the propositions made to men when they visited this place, and as soon as the District Attorney is ready I shall take them up with him."

Bloch told Capt. Flammner that four men had been indicted to put up money

# Desk Room, or a Whole Suite, Which?

It does not make a bit of difference which you want—you can find either one—plenty of variety—all sorts of prices—locations anywhere—in the

# TIMES WANT PAGES

The big majority of tenants and all the owners use these pages as a complete local directory of daily opportunities.
